Our employees are empowered to do the right thing, every time. We treat you like we'd want to be treated, with respect, integrity and care. We listen intently, keep your budget in mind and present you with options. No gimmicks or games - just a fair price for quality work - every day.

Annual and Monthly payments are available

Never worry about renewal again!

★★★★★ "We've had United Heating and Cooling after trying other local companies. United is the best. We recommend them to our friends."

- Jenny

★★★★★ "We have used United for at least 12 years. They are dependable and professional. We also have them check our rental property HVAC yearly. I highly recommend them."

-Kathryn

★★★★★ "United has serviced our HVAC system since designing and installing it when the house was built eight years ago. It is a two zone one unit system which has performed flawlessly and very efficiently. The twice yearly servicing has been done by friendly knowledgeable technicians who are always prompt and very careful about cleaning up any mess and discarded parts. I have been completely satisfied with United."

-Glenn

★★★★★ "Since United installed the heating and cooling system in my home when it was new, I've continued to rely on them for service/maintenance for the past 11 years. Their charges are competitive. They make reminder & arrival calls. An added touch is emailing info about the service technician before he arrives. They address any questions I may have, are always polite, and thorough."

**Never worry about
renewal again!**

Having built the systems in nearly a quarter of the area's new homes, we understand how to maintain and keep your equipment running at optimum performance. This can save you thousands over the life of your equipment.

Our Plumbing Tune-up

includes some of the following checkpoints

- **14 Point water heater tune-up** for safe operation and peak performance
- **Test for gas piping leaks** to ensure safe operation
- **Dye test toilets** to maximize performance with no wasted water
- **Test water pressure** to ensure maximum flow for faucets and showers
- **Test sump pump** to ensure operation and reduce risk of property damage

For a full list of checkpoint items, please call us!
